

Regent Christian Online Academy MINECRAFT CLUB

K-7 Minecraft Club
Teacher: Sarah Moore

Does your child like Minecraft? Are you looking for a safe environment for your student to interact with other students?

Every week there will be a new academic challenge to be completed in a team. Develop critical online communication, planning, research, and teamwork skills while playing in a safe closed environment with other RCOA students!

Term 1: Sept 19-Nov 25 • Term 2: Jan 9-March 10 • Term 3: April 3- Jun 2

The Minecraft Club will have a cap of 30 students per term. Our goal is to allow everyone to have a chance to participate, but if there are open spots your child can participate during multiple terms. Signup is First Come First Serve.

*There is no charge for RCOA students to participate in the Minecraft club, but you will need a PC or Mac, with internet connection. You will also need a copy of the Minecraft for Mac/PC program. You can purchase this at <https://minecraft.net/en/store/minecraft/>
